Setting the Scene

- You have an approved CTE-26 **Career Field Pathway** Program, and have reported EMIS elements for this program
 - *There are other types of CTE-26 Applications*
 - CBI Program
 - FCS/GRADS Program
 - Industry Credential Only Program
- What EMIS data elements do I review to ensure validity?
 - ***Technical Skill Attainment*** – *who passed WebXam*
 - ***Participation Rate*** – *who took WebXam*
 - ***Post-Program Placement*** – *where are they now?*
- I have a compliance issue (Program Review)??
 - *Where do I find the reports?*

What data do they need from me?

- Remember this is lag data dependent upon your D - March Reporting
- However, the data starts many years before you see it on the Program Review
 - *CTE-26*
 - *Valid EMIS reporting, valid testing*
 - *Completion of a program (typically at a JVSD – 2 years)*
 - *Follow Up reporting – completed 6 months after graduation or meeting the criteria for inclusion into March D*
 - Withdraw codes: 47, 71, 72, 73, 74, 75, 76, 77, or 79
 - *That is 4 years from the initial application for a program*

What data do they need from me?

- ODE is providing informational reports that are helpful when communicating with Supervisors, Superintendents, Instructors
- These are sent to districts within the Data Collector, Reports tab, Received Files
 - *2019D CTE TECH ASSMNT PROF*
 - *2019D CTE TECH ASSMNT PART*
 - *2019D CTE POST PROGRAM DISTRICT*

Best Practice – What type of a report from EMIS to a Supervisor

- I took the final submission data from the March “D” reporting
- Took data from the Assessment reports and merged based on SSID
- Merged data based on the SSID to bring over our districts program information
